EGG MICE

If your food looks good, you enjoy eating it even more!

- 1 Cut the egg in two. Place the halves with the yolk facing the plate. Use the pepper to create the eyes and cut radish slices for the ears. Fine carrot threads can become the tail and, even, the moustaches of your mouse.
- 2 If you also bring some cheese, you can cut it in cubes. On a large serving plate you can place all the mice in a circle, ready to eat up the cheese. Bon appetit!

All you need

for two mice:
1 hardboiled egg
4 black pepper seeds
1 radish
1 small carrot
and cheese (optional)
