# THE MAGICAL FRUIT KINGDOM

## STRAWBERRY - BANANA CATERPILLAR

The beautifully colored fruit can inspire you to create an infinity of magic plants and animals and more.

- 1 Cut the banana and the strawberries in round slices. Place the slices in a train-like way, alternating the colors.
- 2 You leave one whole strawberry to become the head of the caterpillar. You can make its eyes out of small bits of banana.
- 3 You can also think of more ideas to create your own magic fruit animal kingdom. Remember to use seasonal and local fruits when you can!

### All you need

1 banana  
3-4 big strawberries  
(ideally the same width as the banana)

PICNIC  
BASKET

# RECIPE CARD
