Presentation of the Greek projects financed by EUKI – (to be held in English)	
60'	Every EUKI beneficiary will have 3 minutes to present their project. The beneficiaries are encouraged to make a quick presentation of their project presenting 1 slide. Beneficiaries with two or more projects will have up to 5 minutes in total.
Virtual Coffee break 10'	
10-15'	The rationale and the idea about EUKI Networking national events and working together. Possibilities and potential collaboration under the next EUKI program. Benjamin Struss – Energy and Climate Policy Consultant for EUKI

Supported by:

Federal Ministry for the
Environment, Nature Conservation,
Building and Nuclear Safety

European
Climate Initiative
EUKI

based on a decision of the German Bundestag

Planning of collaboration between the beneficiaries (To be held in Greek)

90-100'

The participants will come together in order to discuss their future plans with some possibilities for development of common projects and activities.

The main purpose of the discussion will be to try to agree on what instruments we all can use to get closer to each other on national level.

Expected result from this meeting is to agree on a common approach how the EUKI beneficiaries in Greece can share more often their needs, results and achievements and the creation of a EUKI community of projects in Greece.

Closing remarks (5-10')

Supported by:

Federal Ministry for the
Environment, Nature Conservation,
Building and Nuclear Safety

European
Climate Initiative
EUKI

based on a decision of the German Bundestag
